

Commonwealth Supported Places (CSP)

Availability of CSP places

The Melbourne School of Population Health currently has a limited CSP allocation for the **Postgraduate Diploma of Health Social Science, Master of Health Social Science and Master of Public Health**. The School cannot guarantee CSP availability in any given year as this is dependent on the number of students graduating from the Course, freeing up allocated CSP places. If unsuccessful the only other option available is a full fee paying place.

Selection Criteria

Students, who submit their application by the CSP application deadline, will be ranked on:

- Academic background and performance
- Relevant employment and experience history

Prospective Students

Students who wish to be considered for a CSP Application **MUST** submit their application by the **CSP application deadline AND** indicate this in Section B1 of the Application for Admission form. Students will be permitted to defer their application (see Section 1 of the application form) until a later round if they feel that the additional time would improve their chances of meeting the selection criteria. Students who have been previously ranked will **NOT** be considered again.

Current Students (Mid Year Entry / Late Applications)

Current students have the opportunity to apply to transfer from a fee-paying to a Commonwealth supported place (if available) in a subsequent ranking cycle (November following admission) providing they have **NOT** been previously considered for a CSP place. Fee-paying students who wish to apply to transfer will be required (in the first instance) to achieve a cumulative H2A (75%) average across the equivalent of not less than twenty-five points* which if reached, will allow them to be ranked for a CSP place according to the same criteria as new applicants:

- Academic background and performance
- Relevant employment and experience history

How to submit your intention to be considered for a transfer from a Full Fee paying to a CSP place:

1. Fill in the "Application for Consideration of a CSP Place"
2. Submit the Application and supporting documentation to:

The Selection Officer
Academic Programs Office
Melbourne School of Population Health
Level 4, 207 Bouverie Street
The University of Melbourne
Victoria 3010.
